

RetailForce: The solution to fulfil fiscal requirements across countries

Get to know RetailForce!

With over 25 years of experience in implementing fiscal projects, the RetailForce development team brings the know-how to turn receipt data into more than just processing it for fiscal purposes.

RetailForce develops a fiscal framework that ensures compliance with legal requirements across numerous European countries. Instead of developing interfaces for each fiscal country, you only need to connect to one interface.

In short:

- Meet country-specific fiscalization requirements easily
- Signing and processing of fiscal data
- Secure receipt & document archiving
- Fiscalization process automation

TCOG MEETS RETAILFORCE

TCOG RetailForce Integration: The smart app between your POS and RetailForce

TCOG
RetailForce Integration

RetailForce

TCOG has developed a middleware application that acts as the bridge between your POS system and RetailForce's fiscalization platform. Designed for seamless integration with Microsoft Dynamics 365 Business Central and LS Central, this solution simplifies fiscal compliance across multiple countries. With the TCOG RetailForce Integration app, you ensure compliance while streamlining operations.

TCOG is a trusted Microsoft ERP partner, fully specialized in guiding clients in the fashion, retail, hospitality and industry business. With more than one hundred dedicated and knowledgeable colleagues, we deliver powerful software solutions for ERP, business intelligence, integrations, and CRM systems to a wide range of clients across the Benelux.

Key benefits:

- Single implementation for all supported fiscal countries
- Full management of cash register documents and technical journals (event logs)
- Automatic document handling for increased efficiency
- One installation includes all fiscal country configurations
- Built on a multi-tenant architecture for scalable client management
